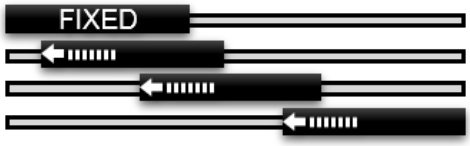
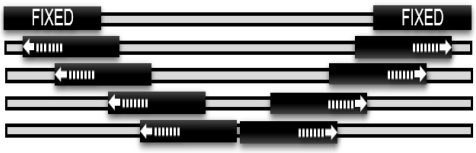
PANEL TRACK SHADES PRICING INSTRUCTIONS

Determine Draw

ONE WAY DRAW: Panels stack on one side only.



SPLIT DRAW: Panels open in the center and stack on both ends.

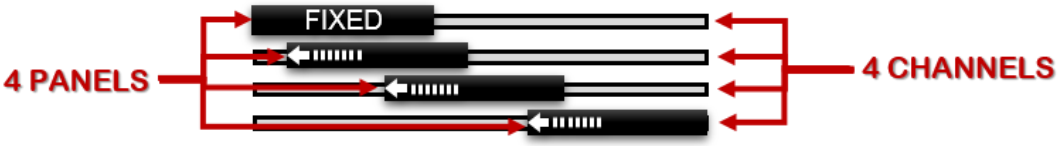


Determine Channel Type and Number of Panels

Channel tracks are the head rail on which panels move in the Panel Track. The channel type is the number of channels used in the Panel Track.

ONE WAY DRAW: Single Panels in separate channels (tracks). An example would be 4 channels (tracks) with one panel on each.

ONE WAY DRAW, 4-CHANNEL TRACK, 4-PANELS



SPLIT DRAW: Multiple Panels in one channel (track). An example would be 5 separate channels (tracks) with 2 panels in each channel(track), making a total of 10 panels that would stack with 5 panels on each side when opened:

SPLIT DRAW, 5-CHANNEL TRACK, 10 PANELS.

Phone: 602-995-9659 Fax: 602-995-7157

Determine the Price of the Track

Panel Track Shades pricing is categorized by the number of channels and panels. Use the Type of Draw, the Number of Channels, the Number of Panels and the actual Track Width to identify the appropriate pricing chart in the Retail Price Guides. For example, a One Way Draw, 4-Channel, 4-Panel Track with a width of 96" would be $616.00. When pricing, remember the measurement will always round up to the nearest measurement on the pricing grid.

Panel Width	23 3/4"	26 1/4"	28 1/2"	31"	33 1/2"	3

Determine the Width and Height of the Panels

After locating the appropriate pricing chart in the Retail Price Guide, the Width of the Panels are identified in the chart under the associated Channel Track Width. For example, a One Way Draw, 4-Channel, 4-Panel Track with a width of 96" would have panels approximately 26" wide. The Height of the panels is determined by your measurement.

Determine the Price of the Panels

Using the Width of the Panels and your measured Height, use the associated Retail Price Grid for the chosen fabric to determine the price of each panel. Using the previous example, a One Way Draw, 4-Channel, 4-Panel Track with panel width of 26", and Height of 96" in Amalfi fabric (Price Group 3) would be $230 (retail) per panel. The total price of the panels would be $920 (retail) ($230 x 4 panels).

Determine the Total Price of the Panel Track

Combine the Channel Track Price, the total Fabric Panel Price. The standard **HOME DECOR** valance is a Clear Edge Valance with Fabric Insert at no charge. If a Valance upgrade is requested, add the upgrade price to the Channel Track Price and the total Fabric Panel Price.

For example, a One Way Draw, 4-Channel, 4-Panel Track with a width of 96" ($616.00), panels 26" wide by 96" height in Amalfi fabric ($230.00 x 4 = $920.00) with a standard Clear Edge Valance with Fabric Insert ($0.00) would combine for a **Total Retail Price of $1536.00**. Use your Discount Cost Factor to get your dealer cost.
