HOME DECOR

WHOLESALE FABRICATORS

Made in America

ARCH FEATURES

- **HOME DECOR** Matching Colors
- Stationary fan arch made in 2” Basswood or Engineered wood slats
- All Frames made of Basswood with routed trim

ARCH SPECIFICATIONS

Standard Features

- Colors to match the **HOME DECOR** deck.
- Stationary fan arches are made in 2" basswood or Engineered wood slats.
- All frames made of Basswood, routed trim inside and out.
- Due to manufacturing process, wood joints may be visible.
- Frames are pre-drilled for mounting; matching buttons are supplied.

Surcharge Options

- **2 ½" Horizontal OR Vertical Slat:** Add 20%
- **Inset Mount:** \$200 upcharge, template required. Light seepage around frame will be visible, 1/16" deduction taken. Please tell us if you want mounting holes drilled for inset mount.

Finished Dimensions

- Available surface mount or inset (see surcharge options).
- Stand alone or over a blind (bottom rail acts as a valance)
- Finished size measurements: 4" Addition to width and 4 ½" to height.
- Frame will extend over drywall 1 1/2" to 2" in width and 2 ½" to 3" in height.

Over a Shutter Requirements

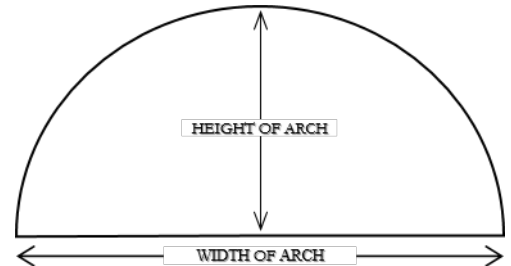

- Both window size and finished frame of the shutter below are required.
- The width of the arch will match the width of the shutter frame.

Measuring Arches

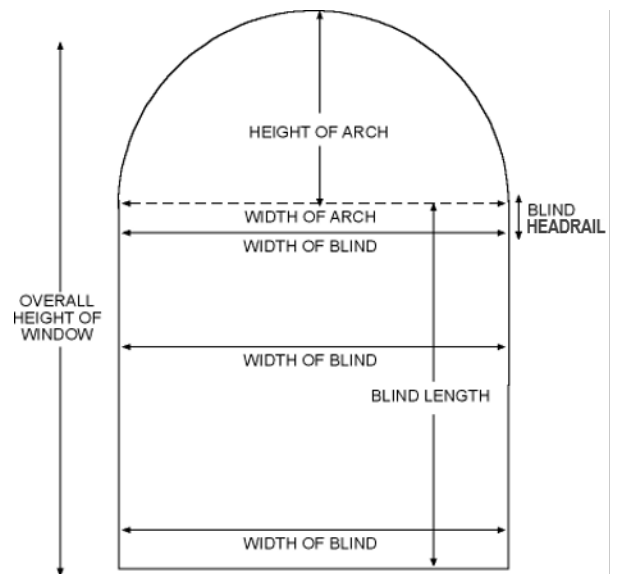

Surface Mount Perfect Arch

- 1) Measure arch **width** inside dimension.
- 2) Measure arch **height** inside dimension

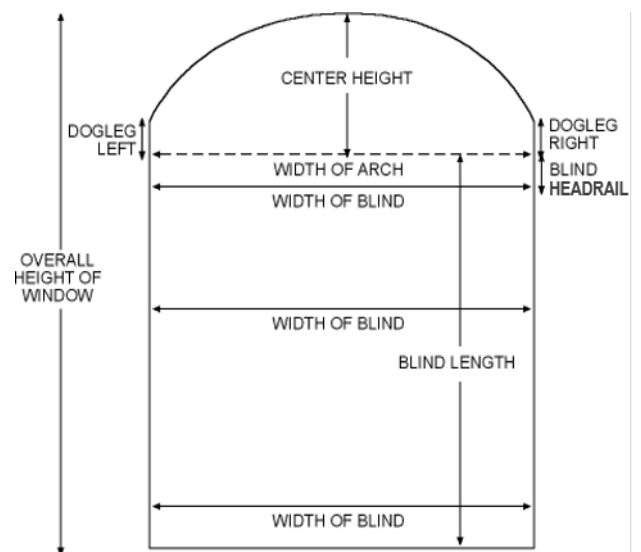

Surface Mount Perfect Arch with Blind Below

- 1) Determine arch **starting height**, starting at the top of the blind headrail.
- 2) Measure arch **width** and arch **height**.
- 3) Make sure blind length and arch height **equal the TOTAL height** of the window.

Surface Mount Extended Arch with Blind Below

- 1) Determine arch **starting height**, starting at the top of the blind headrail. Blind may follow existing horizontal mullion or be at any designated dogleg height between 5" and 17".
- 2) Measure **blind width** and **blind length**
- 3) Measure arch **width** and arch **center height**.
- 4) Measure **arch to dogleg to left** and **dogleg right**
- 5) Make sure blind length and arch height **equal the TOTAL height** of the window.
